

# 2022 IMPACT

## 25,204 Meals Served!

The impact of SAME is in meals served, individuals trained, and communities reached, but the positive change over time happens when people recognize the value they inherently have and what they can offer to others. When people recognize their own dignity and the value they bring, they change themselves, their community, and eventually the world.

"SAME Café has helped me incorporate the vegetables I need that will not inflame my gall bladder or give me migraines. I have not been back to the emergency room because of it."

- Anonymous

"I love SAME. I am currently homeless and struggling with addiction. SAME is a wonderful place to be ... I look forward to the food. It is delicious! SAME brings positivity and goodness into my life." - Denisse
